Revision: Original

Section 9. Special Access Services (Cont'd)

9.5. Leased Line Service

A leased line is a private, dedicated point-to-point connection between a Company Point of Presence (POP) and another point on the Company's network specified by the Customer. Leased line service may be provided to Customers on a statewide basis, based upon the location of the Company's facilities, with transmission speeds of either DS1 (1.5444 Mbps), DS3 (44.736 Mbps), OC3 (155.52 Mbps), OC12 (622.08 Mbps) and OC48 (2,488.32 Mbps). A local access line may be necessary to connect the Customer network or premise with the Company POP. Rates and charges are on an Individual Case Basis (ICB).
