COMPANY: THE BROOKLYN UNION GAS COMPANY

REVISION: 4

INITIAL EFFECTIVE DATE: 10/01/10

SUPERSEDING REVISION: 2

STAMPS:

SERVICE CLASSIFICATION No. 6M – Continued

- e. The Customer agrees to permit access by the Company's employees or representatives, at all times, to the Customer's premises for the purposes of (I) inspection and testing all dual-fuel equipment and associated control devices and (ii) the measurement and verification of dual-fuel consumption.

The Customer agrees that the Company may measure fuel consumption in any reasonable manner, including but not limited to automatic recording devices ("telemetering").

- f. If operation or supply conditions warrant, the Company may designate the "outside temperature" as the temperature measured at The Central Park Observatory for the purpose of requiring the customer to switch to an alternate fuel source.
- g. If the Company declares an emergency, the Customer agrees to immediately manually switch from the use of gas to the alternate fuel upon oral or written request of the Company at any time and the Customer shall not switch back to gas until notified by an authorized representative of the Company.
- h. In conjunction with installed telemetering equipment, the Company reserves the right to install and operate such remote control switching devices as may be necessary to allow for the immediate switchover between gas service and alternate fuel usage as priced for under this Service Classification. This provision shall not affect or modify any Customers' rights or obligations, as contained in this Schedule for Gas Service.

i. Customer Failure

During each winter season (i.e. October through March), a Customer that does not interrupt gas service when required to do so, except for the permitted two therms per hour, for any two occurrences (consecutive or non-consecutive), will be notified that they have violated the service requirements of the interruptible tariff. For sales Customers, effective with the next billing period following the second notice of violation, and for transportation Customers, effective as soon as practicable, such Customers will be transferred to the equivalent firm service classification unless (i) the Company has been notified in writing that the Customer has chosen to terminate gas service or (ii) the Customer has been notified that the Company has determined in its sole discretion that it can not provide firm service to the Customer, and service will be terminated in thirty (30) days. Customers transferred from interruptible to firm service are required to remain on firm service for the remainder of that winter season through the end of the next winter season. After that time, a Customer becomes eligible to re-apply for interruptible service.
