Section 2
Leaf No. 3
Revision: 0
Superseding Revision:

SECTION 2-GENERAL REGULATIONS

2.3 APPLICATION OF RATES AND CHARGES

2.3.1 Application Form

Any Applicant for facilities or service may be required to sign an application form requesting the Company to furnish the facilities or service in accordance with the rates, charges, rules and regulations from time to time in force and effect.

2.3.2 Special Charges

In any case where the furnishing of facilities and service involves special installation work or unreasonable construction, maintenance or replacement costs or expenses on the part of the Company, the Subscriber may be required to agree in writing to a termination charge liability which would apply in the event of disconnection prior to a specified period, or pay an installation charge or construction charge, monthly charge or any combination thereof, based on the additional costs and expenses involved. The Subscriber may also be required to pay additional charges for work performed outside of regular working hours at the request of the Subscriber.

Where the Company furnishes a facility or service for which a rate or charge is not specified in the Company's Tariffs, charges based on cost apply.

A one-time Developmental Inquiry Charge applies to each request for a special assembly. The charge will apply whether or not the Customer elects to proceed with the installation and is in addition to the rates and charges applicable to the request itself.

Where a special assembly request involves an evaluation by a Special Design Staff, a Special Design Charge applies in addition to the Developmental Inquiry Charge. For requests requiring wide band data lines or requests requiring special construction a charge applies. For all other requests a charge applies as shown below. This charge applies whether or not the Customer elects to proceed with the installation and is in addition to the rates and charges applicable to the request itself. If the Customer elects to proceed with the installation, the rates and charges applicable to the special assembly itself will be reduced to reflect the payment of the Special Design Charge. (The Special Design Charge includes both hardware and software.)
