## SECTION 8 - ACCUNET T45 SERVICES

### 8.2 SERVICE COMPONENTS AND RATES (Cont'd)

#### 8.2.3 Office Functions (Cont'd)

- B. Network Protection Capability (NPC) - This office function provides protection against failure for an Interoffice Channel (IOC). Protection is furnished through the use of a switching arrangement that automatically switches to a separately routed, terrestrial digital protection channel when the working channel fails. The protection channel and the switching arrangement are provided when NPC is ordered.

NPC is offered where facilities are available. If NPC for the entire facility is not available when ordered, or becomes unavailable due to network arrangements, NPC may, at the Customer's request, only be furnished on a partial basis. The Customer will be advised before partial NPC is provided and may cancel or discontinue the NPC if partial NPC is not acceptable. No cancellation charge will apply if the facilities are not available or the Customer does not accept the partial NPC.
