SECTION 7 - ACCUNET T1.5 SERVICE

7.2 SERVICE COMPONENTS AND RATES (Cont'd)

7.2.3 Office Functions (Cont'd)

- C. Access Protection Capability - This office function provides protection against failure of a local channel or other access. Protection is furnished through the use of a switching arrangement that automatically switches to a spare channel when the working channel fails, as described in Technical Publication-PUB 54014, Addendum 2 (see Technical Publication Information, Preface). The spare channel is not included and must be ordered separately. This office function also requires compatible equipment to be provided by the Customer at its premises.
