SECTION 10 - DATAPHONE DIGITAL SERVICES

10.2 SERVICE COMPONENTS AND RATES (Cont'd)

10.2.4 Multiservice Volume Pricing Plan (Cont'd)

- E. Expiration and Renewal of a MSVPP - Upon expiration of a MSVPP, the Customer has the option to obtain any MSVPP available or to obtain service under a monthly, volume pricing, fixed rate or other available plan.

The Customer may renew service under a new MSVPP or obtain service under a fixed rate plan or a volume pricing plan by notifying AT&T in writing anytime prior to the expiration for the current MSVPP.

To continue the same service under monthly rates, no action is required on the part of the Customer. Upon expiration of a MSVPP, and unless notification to the contrary is received, the Customer's service will automatically be continued at rates specified under the monthly rate plan in effect at that time. In this case, the Customer will be considered to have satisfied the one-month minimum period.

For a MSVPP, the actual billing will be the sum of the fixed and mileage sensitive charges associated with the interoffice channel, and the monthly charges for all other service components included in the MSVPP less the appropriate discount. If the sum of the charges falls below the minimum monthly revenue commitment, the actual billing will be the minimum monthly commitment revenue less the appropriate discount(s) applied to the actual charges for each service.
