SECTION 6 - TERRESTRIAL T1.5 LOCAL CHANNEL SERVICES

6.2 TERRESTRIAL T1.5 LOCAL CHANNEL SERVICE RATES (Cont'd)

6.2.3 Channel Options - The following channel options are available for use with Terrestrial T1.5 Local Channel Services:

- A. Special Routing - A Terrestrial T1.5 Local Channel Service is normally furnished using facilities selected by AT&T. However, special routing options are available where the required components are available. If complete special routing is not available when ordered, or if it becomes unavailable at a later date due to network rearrangements, special routing may only be furnished on a partial basis. The Customer will be advised before partial special routing is provided and may cancel or discontinue the special routing if the partial special routing is not acceptable. No cancellation charge will apply in such case. Diversity is the only special routing option available for Terrestrial T1.5 Local Channel Services.

1. Diversity - Two or more Terrestrial T1.5 Local Channel Services may be furnished partially or entirely over not more than two physically separated routes, subject to availability of facilities. Diversity is furnished for a portion of the local channel or for the entire local channel depending on the facilities available. If there are more than two local channels, the local channels are divided into two groups and furnished partially or entirely over two physically separated routes.

Charges will be developed on an individual case basis (ICB) as specified in 2.1.5.A of this tariff.
