## SECTION 1 - GENERAL REGULATIONS

### 2.6 CREDIT ALLOWANCES FOR INTERRUPTIONS

- 2.6.1 General - A credit allowance will be given when a local channel service is interrupted, except as specified in 2.6.2 following. An interruption period begins when the Customer reports a local channel service to be interrupted and releases it for testing and repair. An interruption period ends when the local channel service is operative. If the Customer reports a local channel service to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

In addition, there are specific credit allowance regulations that only apply to a given category of local channel service. Those regulations are specified in the section of the tariff which is applicable to the specific local channel service.

#### 2.6.2 When Credit Allowance Does Not Apply - Credit allowance does not apply for:

- A. Interruptions caused by the negligence of the Customer or others authorized by the Customer to use the Customer's local channel service,
- B. Interruptions due to the failure of power, equipment, systems or connections not provided by AT&T,
- C. Interruptions during any period in which AT&T or its agents are not afforded access to the Customer's premises where the local channel service is terminated,
- D. Interruptions during any period when the Customer or User has released a local channel service for maintenance or rearrangement purposes, or for the implementation of a Customer order,
