SECTION 1 - GENERAL REGULATIONS

2.5 PAYMENTS AND CHARGES (Cont'd)

2.5.9 Change in Service Arrangement (Cont'd)

A. When Charges Apply (Cont'd)

3. When a change involves the addition of a point to an existing multipoint local channel service, installation charges apply for the components which are added to the service (including the access coordination function).
4. When a change involves the addition of a channel option, miscellaneous function or miscellaneous equipment item which has a stated installation charge, that charge will apply. In addition, a charge equal to the installation charge for an access coordination function for the appropriate category of local channel service will also apply.
5. When the type of signaling on a Voice Grade Local Channel Service is changed, a charge equal to the installation charge for the local channel or bridged channel(s) involved will apply. In addition, a charge equal to the installation charge for a voice grade access coordination function will also apply.
6. When a change is requested on the access channel associated with a local channel service which consists solely of an access coordination function, a charge equal to the installation charge for the access coordination function involved will apply.
7. For all other changes except those specified in B. following, but including those involving the addition of channel options, miscellaneous functions or miscellaneous equipment items without a stated installation charge, a charge equal to one half of the installation charge for the local channel, bridged channel(s) or interbridge channel(s) involved will apply. In addition, a charge equal to the installation charge for an access coordination function for the appropriate category of local channel service will also apply.
