

AT&T Communications of New York, Inc.
P.S.C. No. 26 -- Telephone
Private Line Local Channel Services
Effective Date: July 21, 2010

Section 2
Leaf No. 41
Revision: 0
Superseding Revision:

SECTION 1 - GENERAL REGULATIONS

2.9 DEFINITIONS (Cont'd)

Component - an element furnished under this tariff. Components are local channels, bridged and interbridge channels, access coordination functions, channel options, miscellaneous functions, and miscellaneous equipment items.

Customer - the person or legal entity which orders a local channel service (either directly or through an agent).

Customer Equipment - terminal equipment, a multiline terminating system or protective circuitry located at non-AT&T premises.

Customer's Premises - the premises of a Customer or user. It also includes Customer-designated non-AT&T premises.

Customer-Provided Communications System - non-AT&T-provided dedicated private line channels and equipment (e.g., microwave or cable system).

Design Loss - the amount of power loss expected to occur when a 1004 Hz tone is transmitted from one end of a local channel to the other end.

Due Date - the date that has been established for completion of the installation, change or disconnect of a local channel service component.

Grandfathered - a service no longer offered to new customers. Existing customers of the service may keep it.

Independent Company - a local exchange company (LEC) that is not a former Bell Operating Company.

Interbridge Channel - a Voice Grade Local Channel Service component which provides a communications path between two Local Exchange Company bridges located in the same LATA.

Interface - the electrical and physical means by which a connection is made at the Customer's premises.
