Section 2

## **SECTION 1 - GENERAL REGULATIONS**

## 2.5 PAYMENTS AND CHARGES (Cont'd)

- 2.5.7 Types of Charges (Cont'd)
  - B. Nonrecurring Charges (Cont'd)
    - 2. Move Charge (Cont'd)

When a Customer requests the installation of a duplicate local channel service to avoid interruption during a move, recurring and nonrecurring charges will apply for the duplicate local channel service. Charges will commence when the duplicate local channel service is furnished. A new minimum payment period will apply for the duplicate local channel service.

- (a) Moves in the Same Building When a local channel service is moved to a new location in the same building at the Customer's request, a move charge applies. A move charge is equal to one-half, except for Digital Data Local Channel Services where whole charges apply, of the installation charge for the local channel service involved, including the access coordination function and any channel options, miscellaneous equipment and arrangements that are associated with the service at that building.
- (b) Moves to a Different Building When a local channel service is moved to a different building (or to a different AT&T central office) at the Customer's request, the move is considered to be the discontinuance of the local channel service at the former location and the installation of a local channel service at the new location. The installation charges for the local channel service apply. Installation charges also apply to the access coordination function and any channel options and miscellaneous equipment or arrangements (with stated installation charges) associated with the service required at the new location. A new minimum payment period will be established for the local channel service.

When a component with a termination charge is moved, the Customer must pay the unexpired portion of the termination charge. A new termination charge will be established at the new location.

If a move to a new AT&T Central Office is not made for customer reasons, but is required as a result of AT&T's rearrangement of its network, move charges do not apply.
