SECTION 5 - CONSUMER SERVICE DESCRIPTIONS

5.10 LOCAL CALLING PLANS (Cont'd)

5.10.5 AT&T One Rate® Local Plan (Cont'd)

A monthly recurring charge will apply to each line that the customer has chosen for this plan. A per minute rate will apply to AT&T direct dialed intraLATA toll and in-state long distance calls.

The Monthly Recurring Charge (MRC) is: 1) billed in advance (the customer may have two MRCs charged to their account in the first billing month, which applies to the month they enrolled as well as the next month), 2) applies whether or not the customer make any calls and 3) is applied in full whether or not the customer's billing period covers a full month.

The full monthly charge for this plan will still apply should the customer no longer subscribes to AT&T as their Primary Long Distance Carrier unless the customer contact AT&T directly and no longer subscribes to AT&T for their Local Service or the customer chooses another AT&T Local calling plan.

There will be no individual call detail on the customer's AT&T billing statement that is associated with the unlimited direct dialed station local calls that are included in this plan. There will be call detail on your AT&T billing statement that is associated with the direct dialed station intraLATA toll, in-state long distance, and state-to-state long distance calls that are included in this plan.

This offer is an add-on to the interstate plan located in AT&T interstate service guide. This offer is available where billing and facility capabilities exist.
