## SECTION 5 - CONSUMER SERVICE DESCRIPTIONS

### 5.10 LOCAL CALLING PLANS (Cont'd)

#### 5.10.3 AT&T One Rate Advantage Plan

To participate in this plan, customers must be classified as a residential customer by AT&T and enroll in this plan by October 21, 2007.

This plan includes a combination of services that include one local access line; unlimited direct dialed station: local, intraLATA toll, in-state long distance, state-to-state calling, and calls to Canada; and a choice of custom calling features for a monthly recurring charge.

Residential customers who subscribe to this plan must have AT&T as their Primary Carrier for all of the following: Local Telephone Carrier, IntraLATA Toll Carrier, and Long Distance Carrier.

Customers must continuously maintain their wireline main residential telephone account with AT&T.

This plan includes:

- AT&T Local Exchange telephone service for one telephone line into the customer's home for the customer's main residential telephone account.
- Choice of 4 custom calling features from a designated list of features.
- Unlimited AT&T direct dialed station: local, intraLATA toll, in-state long distance, and state-to-state calls, as well as calls to Canada that are made from the customer's home, billed to the customer's main residential telephone account, and made without using an AT&T Operator or an AT&T automated call processing system.

All other types of calls are rated at basic rates unless the customer is enrolled in another AT&T plan that covers these other types of calls.
