SECTION 2 - GENERAL REGULATIONS

2.9 DEFINITIONS (Cont'd)

Point of Interface - The point of demarcation between AT&T and an access supplier. This point, located at an AT&T Central Office, establishes the technical interface, the test point, and the point of division of operational responsibility.

Private Line Service - (1) the interoffice channel(s) and office connection(s), station connections and channel option(s) furnished under this tariff to a Customer as a unit uninterrupted by an office function(s), or (2) an office function, or (3) an office connection.

Ringing - an alternating or pulsating current intended to produce an audible or visible alerting signal.

Service Date - the date that billing starts for a private line service or component.

Service Period - the period of time during which AT&T furnishes a private line service. It encompasses the consecutive period from the start of service to the end of service ordered by the Customer.

Serving Wire Center - the wire center from which the Customer's premises or AT&T central office would normally obtain dial tone from the Local Exchange Company.

User - a person or legal entity authorized by a Customer to communicate over, or be connected to, the Customer's private line service.

Wire Center - a building in which one or more central offices, used for provision of local exchange service, are located.

Wire Center Area - the territory served by a serving wire center.
