

AT&T Communications of New York, Inc.
P.S.C. No. 25 -- Telephone
Private Line Services
Effective Date: July 21, 2010

Section 2
Leaf No. 35
Revision: 0
Superseding Revision:

SECTION 2 - GENERAL REGULATIONS

2.9 DEFINITIONS

Access - the communications services, channels, assemblies and systems outside of AT&T's interoffice network that connect the customer premises to the AT&T interoffice network.

Access Connection - an access connection provides the physical connection, at an AT&T central office, of a Local Channel obtained from this Company's Tariff P.S.C. No. 26, or other access, to an IOC, office function, another Local Channel, or other access. One access connection applies for each Local Channel or other access connected.

Assembly - a configuration consisting of Customer equipment (excluding Customer Premises Equipment as defined in Computer Inquiry II) and/or channels which is connected to one or more private line services.

AT&T - AT&T Communications of New York, Inc.

AT&T Central Office - the physical point of access for a service category to the AT&T interoffice network. Criteria for establishing AT&T central offices and a list of AT&T central offices with services provided are in Tariff F.C.C. No. 10.

Channel - an electrical transmission path for communications between two points.

Channel Option - a private line service component added to an Interoffice Channel to change and/or augment its transmission characteristics.

Component - the channel(s), office connections, station connections, channel options, and office functions furnished under this tariff.
