SECTION 2 - GENERAL REGULATIONS

2.5 PAYMENTS AND CHARGES (Cont'd)

2.5.10 Fractional Charges and Credits

- A. Computing Charges or Credits for a Fractional Part of a Month - When rates are stated on a monthly basis, each month is considered to have 30 days for billing purposes. Charges or credits for a fractional part of a month are calculated by counting the number of days remaining in the billing period after the private line service is furnished or has been discontinued. The number of days remaining in the billing period (including the 31st day of a 31-day month, if applicable) are counted starting with the day after the date on which the private line service was furnished or discontinued. Divide that figure by 30 days. The resultant fraction is then multiplied by the monthly charge to arrive at the fractional monthly charge or credit.

Example: Private line service furnished/discontinued on the 15th day of a 30-day month.

Monthly Charge = \$1,000

Number of Days Remaining in
Billing Period = 15 days

Billing Month = 30 days

Fractional Monthly Charge/Credit = $\frac{\text{No. of Days Remaining in Monthly Billing Period}}{\text{Billing Month}} \times \text{Charge}$

Fractional Monthly Charge/Credit = $\frac{15}{30} \times \$1,000$

Fractional Monthly Charge/Credit = \$500

In the above example, the number of days remaining in the billing period would be 13 for a 28-day month and 16 for a 31-day month. The same process would be used for computing the fractional monthly charge or credit.
