SECTION 5 - CONSUMER SERVICE DESCRIPTIONS

5.3 CUSTOM FEATURES (Cont'd)

5.3.1 General (Cont'd)

Q. Caller Waiting ID

This feature is a form of Caller ID for use by Customers that subscribe to Call Waiting. It provides Customers who are on an existing call with the ability to receive Caller ID information for a new incoming call using Customer Provided Premise Equipment (CPE) attached to the Customer's telephone line. Customers must subscribe to Call Waiting. A Customer who subscribes to this feature will also receive the Anonymous Call Rejection feature. This feature is available on a recurring charge basis.

R. Repeat Dial

This feature is an outgoing call management feature that allows the Customer to automatically place a call to the last number dialed by dialing a special code. If the called line is busy, the called line will be checked periodically and the Customer will be notified by a special ring when the called line becomes idle. The Customer can use the phone for incoming and outgoing calls while waiting for the special ring back. Repeat Dialing will be attempted for 30 minutes maximum. Calls placed to 900, 800, 911 DA, International DDD or calls preceded by a carrier code cannot be automatically redialed. This feature can be removed from the line without charge to the Customer. This feature is available on a recurring charge or per activation basis. On a per activation basis, there is a cap on the charges per month of \$6.00.
