SECTION 9 - AT&T DIGITAL LINK

9.1 DESCRIPTION

9.1.1 General

AT&T Digital Link is a Local Exchange Service which permits outward local calling capability from a Customer's premises utilizing Direct Outward Dialing (DOD), Direct Inward Dialing (DID) or Main Listed Number (MLN)* over dedicated digital facilities (as designated in the AT&T Business Service Guide). The Customer's premises must have a Customer provided compatible Private Branch Exchange (PBX) system or multi-line terminating system to originate and terminate the calls. AT&T Digital Link also permits outward local calling capability from a Customer's premises utilizing Direct Outward Dialing (DOD) over an external Local Exchange Company (LEC) provided Centrex Service. The Customer will be responsible for obtaining all necessary Centrex Service Automatic Route Selection (ARS) reprogramming. DOD, DID, 8YY and MLN* capability is available where facilities and operating systems exist.

AT&T Digital Link Service (ADL) supports both line and trunk applications for customers. The Company will determine whether a Customer requires a line or a trunk application based upon: 1) the quantity of telephone numbers at a customer location and 2) Customer's existing service requirements, unless Customer requests a change to existing requirements.

Line applications exhibit lower levels of network occupancy. With line applications there is commonly a relationship of one (1) telephone number per channel.

To adjust for the levels of Customer usage, AT&T will apply a ratio of DID Channel charges to telephone numbers. The specific ratio(s) to be applied is located in the Price List. The Customer may request a full facility charge as an alternative to multiple channel charges.

Trunk applications typically exhibit a multiple telephone numbers per channel relationship. Charges will apply in a ratio of one (1) DID Channel charge per trunk. The Customer may request a full facility charge as an alternative to multiple channel charges.

* Main Listed Number (MLN) is not available for new installations after August 1, 2003.
