9.2.3 Channel Options - The following channel options are available for use with Digital Data Local Channel Services.

- A. Special Routing - A Digital Data Local Channel Service is normally furnished using facilities selected by AT&T. However, special routing options are available where the required local channel facilities are available. If complete special routing is not available when ordered, or if it becomes unavailable at a later date due to network rearrangements, special routing may only be furnished on a partial basis. The Customer will be advised before partial special routing is provided and may cancel or discontinue the special routing if the compromise is not acceptable. No cancellation charge will apply in such case. Diversity is the only special routing option for Digital Data Local Channel Services. It is available only for 56 kbps local channel services.

* See 2.5.2 of this tariff.

** 2.4 kbps and 4.8 kbps Service is provided for existing Customer's only, not for a new Customers.
