SECTION 15 - AT&T REGIONAL ATM SERVICE

15.1 GENERAL

AT&T Regional ATM Service (RATM) is a public data network offering which provides high speed data cell transmission between Local Area Networks (LANs) or other high-speed data communications equipment for distributed computing and video applications

15.1.1 DESCRIPTION

RATM is offered within LATA 132, in the State of New York, where facilities and billing capabilities permit. Service is available for use 24 hours a day, seven days a week. Except as otherwise provided in this tariff, all terms, conditions, features and functions may be found in the AT&T Business Service Guides. Charges for additional AT&T ATM Services which may be used in conjunction with AT&T Regional ATM Service may be found in the AT&T Business Service Guides.

The following AT&T ATM Service features are not available under this tariff for AT&T Regional Frame Relay Service:

- Disaster Recovery Options
- ATM Service Level Agreement
- ATM Service Domestic Gateway Capability
- International ATM Service
- AT&T International End-to-End ATM Service
- ATM Volume Pricing Plan
- Digital Services Volume Pricing Plan

Regional Access Ports furnished under this tariff operate at transmission speeds ranging from 1544 kbps to 155.520 mbps. The port speed defines the maximum rate that the Customer can transmit data to and receive data from the RATM network.
