## SECTION 20 – AUDIO-TELECONFERENCE BRIDGE

### 20.8 REGULATIONS

- A. All charges incurred for the conference call will be billed to the originating telephone number unless arrangements are made to bill the teleconference to a Calling Card or Third Number.
- B. For Customer dialed calls only, chargeable time for the Bridge Port Usage Charge, for the initially specified ports used in a teleconference, starts when the originating station is connected. During the teleconference, if all initially specified bridge ports are in use and additional bridge ports are added, the chargeable time starts for each additional bridge port when the bridge port is added to the teleconference.
- C. Chargeable time for the Bridge Port Usage Charge for the bridge ports ordered on a reservation basis starts at the Customer requested conference start time (whether used or not).
- D. Chargeable time for bridge arrangements other than those ordered on a reservation basis will stop when the conferee in control of the teleconference sends a termination code and hangs up or when all conferees hang up.
- E. Chargeable time for other than Operator Assisted calls will stop for Reservation and Meet-Me type teleconferences at the end of the requested time ordered by the Customer unless extended. If extended beyond the ordered duration, the chargeable time stops at the end of the requested extension.
- F. A fractional minute of use for the Bridge Port Usage Charge is rounded to the next highest whole minute.
- G. A Meet-Me type teleconference conferee located in non equal access exchange areas must be added to the teleconference by the party in control of the teleconference.
- H. A Reservation or Meet-Me type teleconference other than Operator Assisted calls may be changed or canceled at any time prior to 30 minutes of the start time. If a Customer changes or cancels the order within 30 minutes of the start time, or does not use the teleconference, the Customer will be liable for the Bridge Port Usage Charge specified in 20.9.A.1 following for the requested duration of Reservation or Meet-Me type teleconferences. In addition, for a Meet-Me type teleconference, the Customer is liable for the non-recurring charge as specified in 20.9.A.2 following.
