SECTION 20 – AUDIO-TELECONFERENCE BRIDGE

20.9 RATES AND CHARGES

General - Rates for Audio-Teleconference Bridge calls may include: 1) Bridge Port Usage charges, 2) Non-recurring charges, 3) Conference Leg Usage charges, and 4) Set-up charges. When a teleconference is initiated or ordered on a reservation basis, the Customer must specify the number of bridge ports required. One bridge port is required for each station on the teleconference. The Bridge Port Usage charge will be billed for all bridge ports specified by the Customer, whether or not all of the ports specified are actually connected to a station on the teleconference. A Set-Up Charge also applies if the teleconference is established with operator assistance.

A. Rates:

1. Bridge Port Usage Charge - When a teleconference is initiated, the Customer must specify the number of ATB ports (number of stations on the teleconference) required. One bridge port is required for each station on the teleconference. A Bridge Port Usage Charge will be billed for each bridge port specified by the Customer, whether or not each of the bridge ports specified is actually connected to a station on the teleconference.

The Bridge Port Usage Charge applies for each bridge port minute of use. To determine the bridge port minutes of use, multiply the number of bridge ports initially requested by the duration of the total teleconference. If bridge ports are subsequently added to the teleconference, a Bridge Port Usage Charge will apply for the time that each additional bridge port is connected.

- Each Bridge Port, per port minute of use

Rate Period	Bridge Port Usage Charge					
	Customer Dialed		Operator Dialed		Meet- Me	
	<u>Min.*</u>	<u>Maxim.</u>	<u>Min.*</u>	<u>Maxim.</u>	<u>Min.*</u>	<u>Maxim.</u>
