## SECTION 2 - GENERAL REGULATIONS

### 2.11 DEFINITIONS (Cont'd)

#### Customer-Specified Non-Port Location

A location which is designated by the Customer to originate VTNS calls. To establish VTNS calling capability at the location, the Customer must obtain Local Exchange Service which the Customer pre-subscribes to AT&T. The Customer is responsible for paying the Local Exchange Company any charges associated with the Local Exchange Service.

#### Customer-Specified Non-Port Telephone Number

A designated telephone number associated with a Customer Specified Non-Port Location. This number can be dialed from locations as specified in each VTNS Option to connect a call to that Customer-Specified Non-Port Location. Charges for calls using this feature are billed to the called number.

#### Grandfathered Equipment

A term which describes Customer equipment that was directly connected under the circumstances specified below and that is grandfathered under Part 68 of the Federal Communications Commission's Rules and Regulations:

- A. The terminal equipment was directly connected to the telecommunications network or local exchange service prior to July 1, 1979.
- B. The multiline terminating system was directly connected to the telecommunications network or local exchange service prior to January 1, 1980.
- C. The protective circuitry was directly connected to the telecommunications network or local exchange service prior to the dates set forth in A. and B. preceding.
