## SECTION 2 - GENERAL REGULATIONS

### 2.8 RATE DETERMINATION (Cont'd)

#### 2.8.2 Determining the Chargeable Time of a Call (Cont'd)

- C. When CUSTOM NETWORK SERVICES are directly connected to a Customer- provided communications system at a Customer's or User's premises, chargeable time begins when a CUSTOM NETWORK SERVICES call terminates in, or passes through, the first Customer equipment on that Customer- provided communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of interface with the CUSTOM NETWORK SERVICES so that chargeable time may begin.

#### 2.8.3 Determining the Applicable Rate in Effect

- A. Except for CUSTOM NETWORK SERVICES calls that use a special access line, when the call is established in one rate period and ends in another rate period, the rate in effect at the calling station applies to the portion of the call occurring within that rate period. When a calling station on CUSTOM NETWORK SERVICES uses a special access line the rate in effect at the AT&T central office for each rate period applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.
- B. Chargeable time for a rate period (e.g., 8 AM - 5 PM) begins with the first stated hour (e.g., 8 AM) and continues to, but does not include, the second stated hour (e.g., 5 PM).

#### 2.8.4 Use of CUSTOM NETWORK SERVICES For Resale or Shared Use

When CUSTOM NETWORK SERVICES are resold or shared, the Customer may advise its User that a portion of the Customer's service is provided by this Company. However, the Customer shall not represent that this Company jointly participates in the provision of the Customer's services.
