SERVICE CLASSIFICATION NO. 4 (Continued)

7. Billing Quantities for SC-4 Supplemental Service

a. The demand billed for SC-4 Supplemental Service taken hereunder shall be the greater of:

- (1) The amount, if any, by which the overall maximum 30 minute integrated demand as established by metering within the billing period exceeds the sum of:
 - (a) the customer's contract demands for Niagara Power Delivery Service (adjusted for losses between the Niagara Switchyard and the customer's meter as provided in paragraphs 4 and 5 above; and
 - (b) the customer's contract demands for CTC Exempt HLF Delivery Service as determined at the meter according to the provisions of paragraph 5 above; and
 - (c) the customer's contract demands for EDP and/or PFJ Power supplied under Rule 34; or
- (2) The number of kilowatts of SC-4 Supplemental Service contracted for by the customer with the Company and documented on the Company's Form "C"; or
- (3) The minimum demand provisions of the Parent Service Classification as defined above.

b. The billed kilowatt-hours of SC-4 Supplemental Service in each 30 minute interval shall be the amount, if any, by which the total kilowatt-hours at delivery voltage for that interval exceeds the sum of:

- (1) the kilowatt-hours of Niagara Power Delivery Service received by the customer at the customer's meter in that interval; and
- (2) the kilowatt-hours of CTC Exempt HLF Delivery Service received by the customer at the customer's meter in that interval; and
- (3) the kilowatt-hours of EDP and/or PFJR Service received by the customer under Rule 34 in that interval;

Provided however that no customer shall be deemed to have received more kilowatt-hours from these three sources during any interval than its actual total metered kilowatt-hours received during that interval.

Issued by Thomas B. King, President, Syracuse, NY
