Initial Effective Date: June 7, 2011

IV. Carrier Notification

Current interexchange carriers will be notified of Applicant's intraLATA toll dialing parity implementation via letter approximately 90 days in advance of the proposed implementation date. Carriers should provide a list of exchanges in which they plan to offer intraLATA toll service at least 60 days in advance of Applicant's implementation date. Applicant needs notification in advance to include the carrier on the list of participating carriers in each Applicant exchange. Certified carriers who enter the market after implementation will be added to the list of participating carriers within 30 days of notifying Applicant.

Applicant will provide subscriber listing information to carriers in "readily accessible" tape or electronic formats in a timely manner as requested through the processes that currently exist for the interLATA market. The process includes subscriber listing updates to carriers for new customers who choose that carrier or of existing customers of a carrier who revise their subscriber listing information. In addition, carriers can obtain complete subscriber listings in several formats. The provision of this information is in compliance with FCC Order No. 96-333, Paragraph 389.

Applicant will comply with Part 51, Sections, 305, 307, 325, 327, 329, 331, 333 and 335 of the FCC Order in providing the required information and notice to the public of network changes.

Applicant plans to file a public notice with the FCC, with possible migration of the notice to the Internet process as described in Section 329. The notice will include network information as outlined in Section 327. The notice will be provided within the timeframes described in Sections 331-333.
