4. Message Toll Telephone Two-Point Service

4.1 Description

4.1.4 Dial Type Telephone Communication	
A.	Dial type telephone communication denotes a call dialed and completed by the customer from a residence or business land wire telephone without the assistance of a common carrier operator. The services of a common carrier operator will not be used in connection with completing a call, or in furnishing any assistance relating to billing or charges for such call, except that a common carrier operator will perform the following functions.
1.	Reestablish a call which has been interrupted after the called number has been reached, or
2.	Reach the called telephone number where facilities are not available for customer dial completion or
3.	Establish calls for handicapped persons who have been accorded dial operator privileges.

4.1.5 Non-Coin and Coin Operator Handled Telephone Communication	
A.	Operator-handled telephone communication calls include collect, 3rd number, Corrections Collect Calls, requests to notify, time and charges, and other station-to-station calls using the assistance of the operator.
1.	Corrections Collect Calls rates apply to station-to-station collect calls made from payphones located at correctional facilities through interaction with an automated operator. The charges are billed to the called party upon acceptance of the call.
