Inbound Blocking Packages	Description	Charge
3 rd Party Blocking	Refers to a customer calling the local/long distance operator from a phone other than their own and billing another call back (long distance, local or toll) to their ALS phone number. The party of the billed to number pays for the usage and any operator surcharges. A business customer may wish no to be billed for these types of calls (possible fraud) and have 3 rd party calls blocked.	\$0.00
Collect Call Blocking	Refers to a customer accepting collect calls made to their ALS phone number. The called party pays for any usage and operator surcharges for such calls. Typically businesses do NOT have collect calls blocked and consider it to be a customer service. However, this is at the customer's discretion.	\$0.00
