

PSC NY No. 8--COMMUNICATIONS

Verizon New York Inc.

Section 2
First Revised Page 21
Superseding Original Page 21**Network Interconnection Services****2. Tariff Information and General Regulations**
2.5 Use of Service

2.5.1 Scope	
A.	NET-I services may only be used for the termination of intraLATA POTS calls (including local traffic) to NXXs served on the Telephone Company's network, including calls redirected from the CLEC to the Telephone Company under interim number portability that otherwise meet the criteria described in Section 2.4.1B.
1.	Facilities used to provide NET-I services may be used to deliver interexchange and/or cellular traffic which does not originate from a CLEC's local exchange end user on that CLEC's network as provided in Sections 6.8.1 and 6.8.2.
B.	Interexchange switched access services that terminate on NET-I facilities will be rated under the PSC NY No. 11 and Verizon Telephone Companies Tariff FCC No. 11 (feature group service). (T)
C.	Calls originating from cellular and other wireless carriers' networks and terminating on NET-I facilities to the NXXs residing on the Telephone Company network will be rated under PSC NY No. 1. (T)
D.	Calls originating from CLEC end users who are assigned telephone numbers residing within that CLEC's NXX code and terminating to end users assigned telephone numbers residing within NXX codes that are not Telephone Company codes (e.g., other CLECs, ITCs' end offices) are not provided under this tariff, except as provided under provisions for transient tandem service.
E.	A CLEC, its customer, joint user, or authorized user may not assign, or transfer the service without the written consent of the Telephone Company. The Telephone Company will permit a CLEC to transfer its existing service to another CLEC if the existing CLEC has paid all charges owed to the Telephone Company. When physical or software network changes are involved, such a transfer will be treated as a disconnection of existing service and installation of new service, and nonrecurring service order, installation and engineering charges set forth in this tariff will apply. When only administrative activity is involved, the administrative charges (NRCs) set forth in this tariff will apply.
2.5.2 Lawful Use	
A.	The service provided under this tariff shall not be used for an unlawful purpose.
B.	The Telephone Company is prohibited from furnishing services by order of a court or other government authority having jurisdiction.
