New York Tariff No. 3 - Telephone

Effective Date: April 3, 2011

Section 12

Leaf No. 29

Revision: 0

Superseding Revision:

SECTION 12.0 – CUSTOMIZED PRICING ARRANGEMENTS***12.6 CPA Discounts, (Cont'd.)****12.6.3 Calculation of Net Effective Usage Rate**

Net Effective Usage Rate or Net Effective Rate is the effective rate which a Customer will pay for a Service or Service element under the Customer's CPA for Usage Charges, after the application of credits, discounts and any other price (and discount) related adjustments which apply to that individual Service or Service element, allocated in the manner requested by or explained to the Customer, subject to the systematic reporting capabilities of the Company, and based upon the Customer's specific weighted average Service and call traffic profile or reasonable estimates thereof.

The calculation of the Net Effective Usage Rate is illustrated in the following example. The example is provided for illustration purposes only. The rates, discounts and charges depicted are not intended to be representative of actual rates, discounts or charges that a Customer might expect to receive.

Assume a Customer is eligible for the following discounts based upon "Monthly Minutes of Use":

Monthly Minutes of Use	Dedicated Service	Switched Service
100,000 – 499,999	8.0%	10.0%
500,000 – 999,999	9.0%	15.0%
1,000,000 +	10.0%	20.0%

Assume further a dedicated base rate of \$0.25 per minute for 1,000,000 minutes of dedicated service and a switched base rate of \$0.30 per minute for 250,000 minutes of switched service. The following is a calculation of the net effective usage rate:

** Effective March 3, 2010, services will no longer be available to new customers under a Customized Pricing Arrangement (CPA).*
