Rochester Gas and Electric Corporation
Initial Effective Date: January 1, 2008

Leaf No. 81.1.1
Revision: 0
Superseding Revision:

GENERAL INFORMATION

4. METERING AND BILLING (Cont'd)

L.1 INCREMENTAL LOAD PROGRAMS (Cont'd)

A. INCREMENTAL LOAD RATE (Cont'd)

ELECTRIC SUPPLY PRICING OPTIONS

ILR customers may select one of the following electricity supply pricing options: (1)) ESCO Price Option (EPO), (2) RG&E Variable Price Option (VPO), or (3) RG&E Fixed Price Option (FPO).

ESCO Price Option (EPO)

This Retail Access choice includes a fixed component for RG&E delivery service, a fluctuating Transition Charge for Economic Development ("TC ED", as described below), and a Retail Access Credit of \$0.004 per kWh. Electricity supply is provided by an ESCO.

RG&E Variable Price Option (VPO)

This Non-Retail Access choice includes a fixed component for RG&E delivery service, a fluctuating Transition Charge for Economic Development (TC ED, as described below) and a commodity charge for electricity supply that fluctuates with the market price of electricity and consists of energy, capacity, capacity reserves, losses and unaccounted for energy. Electricity supply is provided by RG&E.

RG&E Fixed Price Option (FPO)

This Non-Retail Access choice includes a fixed component for RG&E delivery service, a fixed Transition Charge for Economic Development (TC ED, as described below), and a fixed commodity charge for electricity supply provided by RG&E. The fixed commodity charge will be reset on January 1 of each Commodity Rate Period and may be adjusted on April 1 of each Commodity Rate Period, pursuant to RG&E's Electric Rate Joint Proposal; however, the adjusted rate will be applicable only to a customer starting service at a new location after April 1 of any Commodity Rate Period and receiving such service under RG&E's FPO.
