## SERVICE CLASSIFICATION NO. 7 (Continued)

## SPECIAL PROVISIONS: (Cont'd.)

## (d) (10) Incremental Load Incentive (ILI)

Customers who qualify under the Incremental Load Incentive (ILI) in Section 19 of the General Information section may select one of the following rate options, as specified in this Service Classification and Section 25, Pricing Options Effective January 1, 2008, for such qualified incentive load: 1) NYSEG Fixed Price Option (FPO), 2) ESCO Price Option (EPO) or 3) Hourly Pricing.

Such customers will have their service bills reduced, for a term of 60 months, by an incentive rate per kilowatthour for all qualified kilowatt-hours used thereunder.

The incentive rate will be the equivalent of the applicable Transition Charge (NBC), as described in this Service Classification, less the ancillary service costs and NTAC components of the Transition Charge, to the extent that the Transition Charge exceeds the ancillary service costs and NTAC components.

An Economic Incentive Rate (EIR) Statement setting forth the annual incentive rates will be filed with the Public Service Commission on not less than three (3) days' notice. Such statement can be found at the end of this Schedule (PSC 120 - Electricity).

Customers transitioning from the Incubator Development Incentive will be phased in as follows:

Per kilowatt-hour, for all qualified kilowatt- hours	Effective Date				
	01/01/2007	01/01/2008	01/01/2009	01/01/2010	01/01/2011
	\$0.0250	\$0.020	\$0.015	\$0.010	\$0.005

At any time during the phase in, an IDI customer may make a one-time election to receive the ILI discount on the qualified kilowatthours instead of the phase in. Once a customer has made this election, they will not be allowed to return to the phase in.

(e) Billing Duration:

Service Classification No. 2 customers who opt for service under Service Classification No. 7 for the first time must remain on the Time-Of-Use rate for a period of not less than six months prior to becoming eligible to return to Service Classification No. 2.
