SERVICE CLASSIFICATION No. 18 - Continued**Gas Delivery Nomination Procedures**

The Gas Delivery Nomination Procedures for all transportation customers are described in the Company's Gas Transportation Operating Procedures Manual, Section IV and Section V, as filed with the Public Service Commission.

Communications Protocols

The Communications Protocols for all transportation customers are described in the Company's Gas Transportation Operating Procedures Manual, Section VII, as filed with the Public Service Commission.

DETERMINATION OF ON-SYSTEM BILLING QUANTITY

For the purpose of computing the quantity of gas delivered to a Customer's delivery point, the quantity of gas delivered each month to the Company for the account of a Customer taking service under this Service Classification shall be reduced by a percentage factor, as determined annually on August 31, to provide for system use and losses within the Company's distribution system as specified in the Customer's CTB Service Agreement. The Company reserves the right to petition the Public Service Commission for permission to change such percentage factor in the event it determines that a change is required to more accurately reflect system use and losses.
