GENERAL INFORMATION - Continued

- (b) The rates and charges under all service classifications, including the gas adjustment and minimum charges, shall be increased by an additional percentage, after the Effective Aggregate Percentage has been applied, to recover the tax expenses imposed by the Metropolitan Transportation Business Tax Surcharge, pursuant to Tax Law Section 186-c and 209-B. The surcharge percentage shall be set forth on the statement described in (a) above and shall remain in effect for a twelve-month period. A new surcharge percentage shall be filed with the Public Service Commission for each year the tax surcharge is applicable. In the event the revenues produced by the percentage increase in rates and charges in each twelve-month period are substantially higher or lower than the tax expenses incurred, the Company will file a reconciliation statement after each twelve-month period.
