Initial Effective Date: June 17, 2006

Section: 9 Leaf: 2
Revision 0
Superseding Revision 0

SECTION 9: MESSAGE TOLL SERVICE AND INTRALATA CALLING SERVICE

9.3 IntraLATA Calling Service

9.3.1 Description

IntraLATA Calling Service provides a Customer with the ability to originate calls from a Company-provided access line to all other stations on the public switched telephone network bearing the designation of any central office exchanges, areas, and zones included in LATA 132.

Per minute charges apply for each call. Timing is in whole minute increments, with a minimum charge of one minute per call. The plan is available on a month-to-month basis.

9.3.2 Rates

The rates set forth in this section apply to all direct-dialed intraLATA calls. For operator-assisted intraLATA calls, the operator charges listed in Section 12.1.3 apply in addition to the charges listed below.

	<u>1 YR</u>	<u>2 YR</u>
Rate per minute	\$0.0550	\$0.0523

Volume Discounts

<u>Monthly Usage</u>	<u>Discount</u>
\$0 - \$999	0%
\$1,000-\$2,499	5%
\$2,500-\$3,999	10%
\$4,000+	15%

9.3.3 IntraLATA Toll Carrier

Customers have the opportunity to designate a carrier for their intraLATA toll call traffic where Focal provides local exchange service. IntraLATA toll calls will automatically be directed to the designated carrier without the customer having to dial an access code. Alternately, customers may option to have a "No PIC" designation on their line. If a customer cannot decide at the time of placing an order on an intraLATA carrier, the Company may extend a 30 day grace period following the order placement for the customer to select a carrier and in the interim will be assigned a "No PIC" designation. Customers with a "No PIC" designation will be required to use an access code to reach an intraLATA carrier's network. If a customer changes their designated carrier or changes their designation from "No PIC" to a carrier, a \$5.00 charge will be billed to the customer for each eligible line that a PIC change occurs.
