

Printing Office, Superintendent of Documents, 941 N. Capitol, N.E. Washington, D.C. 20401. . Any change to or reissuance of these regulations supersede tariff language contained herein.

- 5.3 TSP System Service will be provided to any customer upon receipt of written confirmation that the proper Priority System Authorization Number (PSAN), as provided by the Federal Government, has been duly authorized and that authorization has subsequently been confirmed by the Telephone Company.
- 5.4 The customer, in obtaining TSP system service, acknowledges and consents to the provision of certain customer service record information by the Telephone Company to the NCS in order for the NCS to maintain and administer its overall TSP System. This customer service record information will include TSP Authorization Code and Telephone Company Circuit Service Identification information.
- 5.5 When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.
