

PSC NO. 5 TELEPHONE
Broadwing Communications LLC
Initial Effective Date: June 17, 2006

Section: 14 Leaf: 1
Revision 0
Superseding Revision 0

SECTION 14: INTRA-NETWORK CALLING

14.1 LocaLINC™ (IntraLATA)

14.1.1 Description

LocaLINC™ allows Focal outbound customers to realize savings when they place calls to other Focal customers' inbound Focal T1 lines. The same rate applies to all calls within local and local toll (intraLATA) calling areas, as defined in Section 4.2 of this tariff.

14.1.2 Regulations

1. Both the originating and terminating parties must have Focal T1/PRI lines in place at the originating and terminating premises. Customers with multiple local providers must program their PBX(s) to route calls over the proper Focal T1 trunkgroups.
2. Customers must be in the same LATA. In addition, the customer must have their intraLATA toll traffic PIC-ed to Focal, otherwise only local calls will qualify for LocaLINC™ calls.
3. For customers who select this service, LocaLINC™ rates will prevail for all call types.
