GENERAL INFORMATION

6. LIABILITY (Cont'd)

A. CONTINUITY OF SUPPLY (Cont'd)

- (2) Compliance with directives of the New York Independent System Operator ("NYISO") shall, without limitation by reason of specification, constitute a circumstance beyond the control of the Company for which the Company shall not be liable; provided, however, that the Company shall not be absolved from any liability to which it may otherwise be subject for negligence in the manner in which it carries out the NYISO's instructions. (See Rule 6.A. 1.)
- (3) Without limiting the generality of the foregoing, the Company may, without liability therefore, interrupt, reduce or impair service to any Customer or Customers in the event of an emergency threatening the integrity of its system, or any other systems with which it is directly or indirectly interconnected, if in its sole judgment or that of the NYISO (Rule 6.A.2), such action will prevent, alleviate or reduce the emergency condition, for such period of time as the Company, or said NYISO, deems necessary.
- (4) Customers requiring service which is uninterrupted, unreduced or unimpaired on a continuous basis should provide their own emergency or back-up capability.
