

PSC No: 16 - Gas  
Rochester Gas and Electric Corporation  
Initial Effective Date: October 2, 2006

Leaf No. 62  
Revision: 1  
Superseding Revision: 0

## GENERAL INFORMATION

### **4. METERING AND BILLING (Cont'd)**

#### **B. THERM DETERMINATION**

For billing purposes, a customer's Ccf gas use shall be converted to therms based on the weighted average Btu content of gas purchased by the Company from its gas suppliers during the customer's billing period. A customer's use in therms is equal to Ccf use times the Heat Value Factor. The Heat Value Factor for a customer's billing period shall be determined by dividing (1) the sum of the daily Company dekatherms purchased during the billing period by (2) the sum of the daily Mcf purchased during the billing period.

#### **C. BILLING PERIOD**

Meters will be read monthly or bimonthly at the option of the Company. Where readings are scheduled for bimonthly intervals, the Company shall render interim bills calculated from the best data available. On request, the Company will furnish postcards to customers whose meters are scheduled to be read bimonthly for the purpose of reporting meter readings in the intervening months.

A monthly meter reading period, for billing purposes, is any period consisting of not less than 25 days nor more than 35 consecutive days, and a bill for any shorter or longer period will be prorated on the basis of a 30-day billing period.

When changes in rates or charges become effective, such rates and charges shall be applied to service supplied on or after the effective date shown in this Schedule. Bills will be prorated on the basis of a 30-day billing period.
