SERVICE CLASSIFICATION NO. 8

APPLICABLE TO USE OF SERVICE FOR:

Interruptible transportation of gas which is used to fuel an electric generation facility having dual fuel capability and a capacity of 50 MegaWatts or greater (hereinafter referred to as the "customer") which is located adjacent to the Company's existing gas distribution mains having adequate capacity to supply the customer's prospective customers taking firm, withdrawable or interruptible service from such distribution mains or who agree to pay to the Company the cost of all service lines, main extensions, measuring and regulating equipment and system reinforcements necessary for the Company to provide service hereunder and which agrees to:

- (a) discontinue use of gas, in whole or in part, at customer's facility being served hereunder at the Company's request on not less than two hours notice, such interruption may be consecutively or non-consecutively for a maximum term of up to 720 hours (30 equivalent days) in any year;
- (b) install and maintain facilities, acceptable to the Company, for using alternate fuels during periods in which the Company requires the customer to discontinue service;
- (c) install the necessary electronic equipment, acceptable to the Company, which allows the Company to monitor the customer's daily usage of gas, including separate metering for gas used for ignition and/or space heating purposes which shall be billed under the applicable firm transportation or firm sales service classification; and
- (d) not use service supplied hereunder in any equipment which is supplied with gas service under any other Service Classification of this schedule.

The Company reserves the right to inspect equipment installed under (b) and (c) above prior to the commencement of service hereunder.
