Corning Natural Gas Corporation  
Initial Effective Date: 04/01/2008

Leaf: 142  
Revision 0  
Superseding Revision:

SERVICE CLASSIFICATION NO. 9 (Cont'd)

If the Customer's annual load factor, based on their winter peak demand, is not at least 50 percent, the Customer will be transferred to the appropriate firm sales or transportation service for one year, unless there are mitigating circumstances which would argue for allowing the Customer to continue operating under this service classification or returning to this service classification in less than one year, at the discretion of the Company.

DETERMINATION OF DEMAND:

The Customer's Maximum Daily Quantity (MDQ) will be set initially on the fuel requirements of the Customer's installed distributed generation equipment for a twenty-four (24) hour period. Should the Customer's actual usage exceed their MDQ, the MDQ will be deemed changed and MDQ for service and billing purposes will be increased to this new service level.

APPROVED REMOTE METERING:

All Service rendered hereunder shall be metered separately from any other gas service provided to customers at the customer's location.

BALANCING AND CURTAILMENT:

Customers electing commodity service who subsequently elect to migrate to an alternate supplier must participate in Monthly Balancing Service and are subject to the curtailment provisions of monthly balanced customers.

SPECIAL PROVISIONS:

A. Separate service lines for DG usage and non-DG usage shall not be required. However, if existing services and upstream distribution facilities are inadequate, the customer shall be responsible for all incremental costs incurred by the Company. DG customers shall be charged for additional facilities pursuant to the Company's existing rules set forth in the Company's tariff.

B. Information regarding metering options is set forth in the Gas Transportation Operating Procedures Manual.

C. DG rates pursuant to this service classification shall apply only to DG usage. Non-DG use gas shall be measured and billed separately and not under this service classification.
