

PSC No: 5 Gas
Corning Natural Gas Corporation
Initial Effective Date: 04/01/2008

Leaf: 111
Revision 0
Superseding Revision:

SERVICE CLASSIFICATION NO. 3

Applicable to use of Service for:

Use of Natural Gas for any and all purposes, at one location, to any large volume consumer, when the Company has executed a separate Service Agreement with the customer for service.

Character of Service:

Interruptible natural gas averaging not less than 1,000 BTU per cubic foot.

Available in instances where the Company's facilities and gas supply are adequate or where required facilities and gas supply can be economically provided to supply the customer's requirements and when such service will not unduly jeopardize the general character of service to existing customers.

Gas sold hereunder to customer shall be subject to curtailment and interruption during periods of peak demand as determined by the Company in its sole discretion. Customer agrees that Company shall not be liable for any loss or damage that may be sustained by customer for reason of any curtailment or interruption of service.

Rate per Month:

The rate applicable to all contracts shall be determined at the discretion of the Company and will be based on the cost of alternate fuels available to the customer. The Company will determine, at its discretion, the current cost of propane, No. 2 oil, No. 4 oil and No. 6 oil and offer rates to compete with each alternate fuel based on its determination. The contract rate shall be the rate in effect on the day the Customer's contract is signed and thereafter unless changed at the discretion of the Company with no less than three days notice.

The rate categories are as follows:

<u>Rate Categories</u>	<u>Customer's Alternate Fuel</u>
Category A	Propane
Category B	No. 2 Oil
Category C	No. 4 Oil
Category D	No. 6 Oil

Under no circumstance can the rate determined by the Company be less than 1 cent per therm over the Company's commodity cost of gas, or more than the terminal (Tail-block) rate of S.C. 2 including the purchased gas adjustment as described in Rule V
