The Company reserves the right to require that the consumer shall bear the entire reasonable expense of providing and installing pipe and fixtures other than meters within the customer's premises, the repair thereof and special work within the customer's premises, requested by a customer or necessitated by work conditions over which the Company has no control.

The Company reserves the right to determine the location of any gas service. The house risers must be brought near the point of entry of the service line.

5. Main Extension Surcharge

If the Company, in order to provide service to an applicant, must install mains and appurtenant facilities in addition to those required to be provided without charge under 2. above, the Company will impose a surcharge subject to the following provisions.

- (1) The surcharge relating to mains and appurtenant facilities including return, depreciation, taxes and maintenance shall not exceed 20 percent per year of the actual reasonable cost of such facilities that exceeds the portion which the Company is required to install without charge to an applicant, if the Company lays a main of 4 inches or less in nominal diameter (in the case of low pressure distribution) or of 2 inches or less in nominal diameter (in the case of high pressure distribution). If the Company lays a main greater than 4 inches in nominal diameter (in the case of low pressure distribution) or greater than 2 inches in nominal diameter (in the case of low pressure distribution), the surcharge shall not exceed 20 percent per year of the estimated reasonable cost of a 4-inch main (in the case of low pressure distribution), or a 2-inch main (in the case of high pressure distribution) unless the estimated consumption of the proposed customer(s) requires the installation of a larger-sized main, in which event the surcharge shall not exceed 20 percent per year of the actual reasonable cost of such main. The surcharge shall commence when gas service is first available to the applicant and shall be paid ratably for each billing period.
