

PSC NO. 88 Gas
NEW YORK STATE ELECTRIC & GAS CORPORATION
Initial Effective Date: 11/01/07

Leaf: 17.2
Revision: 0
Superseding Revision:

GENERAL INFORMATION

9. UNAUTHORIZED OVERRUNS:

In the event actual gas deliveries to the Customer exceed the Customer's MDTQ or the amount authorized by the Company either (1) on a day when partial or complete interruption of gas delivery is requested by the Company, or (2) on a day when an OFO has been issued, or (3) if pursuant to Section 4.V.6 of this Schedule, the Company was misled or the Customer provided inaccurate information to the Company when establishing the MDTQ, all such excess deliveries shall be termed "unauthorized overruns." The Customer shall be required to pay the Company for such unauthorized overruns an amount equal to the prices of the sales service classification assigned to the Customer's meter, plus any costs or penalties assessed by the upstream pipeline or supplier, plus \$2.50 per Therm.

10. QUALITY OF CUSTOMER-OWNED GAS:

Gas delivered by or on behalf of the Customer to the Company shall conform to the upstream pipeline's gas quality standards.

11. HEAT CONTENT AND PRESSURE:

Gas delivered to the Customer will be natural gas or a mixture of natural gas and liquefied petroleum gas with minimum Btu content equal to that stated in the Customer's designated sales service classification with pressure at the option of the Company, but not less than two (2) psig.

Issued in compliance with order in Case 06-G-0059 dated August 23, 2007
