Each billing period, the charge for commodity service will be calculated by subtracting the fluctuating Transition Charge for that billing period from the following Fixed Total of commodity and transition charges (Fixed Total) established on November 1 (to be effective on the following January 1) or April 1, as applicable and as set forth below, pursuant to General Information Section 25.A.4.

Effective Date	09/01/2007

If a Fixed Total price that was established November 1, for the Commodity Option Period beginning January 1, qualifies for adjustment on April 1, NYSEG will file such revised Fixed Total price with the Public Service Commission not less than three days prior to the effective date of the revised Fixed Total price. However, the April 1 Fixed Total price will only be applicable to an eligible customer who is new or has moved within the Company's service territory and chooses the FPO rate on or after April 1.
