GENERAL INFORMATION

25. METER: (Continued)

25.1 Company-Required Billing Meters (Continued)

25.1.1.1.4.1 Such data access may require the installation by the Company of an additional device that will allow multiple data access, with the cost responsibility of such device and installation to be borne by the Customer.

25.1.2 Except as otherwise provided in this Tariff, the Company, at its cost, will have sole responsibility for the installation, maintenance, testing (including work performed to comply with 16 N.Y.C.R.R. Part 92, "Meter Testing and Reporting"), and removal of all meters required by the Company for its billing purposes, whether such meters are supplied and owned by the Company or by the Customer.

25.1.2.1 The Customer will be responsible for all Company costs to install, operate, and maintain any Customer-owned meter, including work performed to comply with 16 N.Y.C.R.R. Part 92, "Meter Testing and Reporting".

25.1.3 The Company will have sole control of all meters required by the Company for its billing purposes, whether such meters are owned by the Company or by the Customer.

25.1.4 All service to a Customer at a single location shall be rendered through a single meter, subject to the following provisions:

25.1.4.1 When Customer makes written request upon the prescribed form, Company will install as many meters as Customer shall desire, provided that the circuit or circuits connected on the load side of each meter are kept separate from all other circuits, in which event the service rendered through each meter shall be determined separately and billed separately in accordance with the provisions of the applicable Service Classification.
