

PSC No: 6 Gas  
Corning Natural Gas Corporation  
Initial Effective Date: 09/01/2008

Leaf: 23  
Revision 0  
Superseding Revision:

SERVICE CLASSIFICATION No. 1 (Cont'd)

Minimum Charge:

None

Terms of Payment:

Net Cash

Term:

Five years and thereafter form year to year until cancelled by either party by six months written notice to the other.

Special Provisions:

a. Measurement

Unit of Measurement and Metering Base. The unit of measurement hereunder shall be 1,000 cubic feet of natural gas at a base temperature of 60 degrees Fahrenheit and at an absolute pressure of 14.743 pounds per square inch. The volume of gas delivered shall be computed on this basis in accordance with Boyle's Law for the measurement of gas at varying pressures.

Atmospheric Pressure. The average absolute atmospheric pressure shall be assumed to be 14.17 pounds per square inch, as calculated by the actual elevation of the delivery point above sea level and will not be corrected for variations in such barometric pressure from time to time.

Specific Gravity. Variations in specific gravity of the gas shall be allowed for by determining the monthly mean or average values, which values shall be applied to the computation of deliveries.

b. Quality

Processing. The gas delivered hereunder shall be natural gas from Seller's present or future sources of supply, provided, however, that moisture, impurities, helium, natural gasoline, butane, propane any other hydrocarbons, except methane, may be removed prior to delivery to Buyer.

Issued by Michael German, President and C.E.O., Corning, N.Y. 14830
