System Benefits Charge

As of January 2008, and annually thereafter until the Commission orders otherwise, a System Benefits Charge (SBC) will recover costs associated with the Company's energy efficiency programs. Such costs, including program costs and lost revenue, are recoverable through the SBC pursuant to the Commission's Orders in Case 06-G-1186.

The Company will calculate the SBC by dividing the annual energy efficiency dollars, plus (minus) any over or undercollections from prior years, including carrying charges, by the projected volumes from the following firm service classifications: 1A, 1AR, 1B, 1BR, 1B-DG, 2A, 2B, 3, 5, 15, and 16.
