**SERVICE CLASSIFICATION No. 4**  
**Interruptible Gas Service (Continued)**  
**(Rate Codes: 310, 310A, 311, 320, 321)**

**Character of Service:**

Gas Service provided under this Service Classification shall be on an interruptible basis. In providing service under Service Classification, the Company will, upon four hours notice (or one hour notice in the case of system emergency), interrupt deliveries of gas to any or all Customers taking service under this Service Classification whenever and to the extent that it may be advisable in the Company's judgment. This includes interruptions in order for the Company to obtain exemption from curtailment under the Company's pipeline suppliers' curtailment plans.

**Rate:** (per meter per month)

The Company will, at its sole discretion, set the rate per therm at a level which is no less than the Company's Incremental Cost of Gas (Interruptible Floor Price). The interruptible floor price shall be updated as necessary within the Effective Month, to account for any higher price gas supplies that are actually dispatched to serve the interruptible sales customers. In addition, an annual price cap will apply in compliance with the Commission's orders in Case 06-G-1186. The annual price cap calculation will compare actual S.C. 4 revenues versus what those revenues would have been under Service Classification No. 2B - General- Heating. If during any month the Interruptible Floor Price is higher than the published Monthly Cost of Gas for S.C. 2B, an adjustment to the annual price cap is permissible.

The five interruptible Customer categories are defined as follows:
