

PSC No. 1 - WATER
COMPANY: LONG ISLAND WATER CORPORATION d/b/a
LONG ISLAND AMERICAN WATER
INITIAL EFFECTIVE DATE: JULY 31, 2008

LEAF NO.: 47
REVISION: 0
SUPERSEDING REVISION: 0

GENERAL INFORMATION

- .6 The Corporation, through its properly authorized agents and assistants, may request and, upon the consent of the customer, may enter the premises of any customer who is supplied with water to examine the pipes and fixtures, backflow prevention devices, the quantity of water used, the manner and nature of water used, types of stored materials, supplies and products, processes, private wells, swimming pools, underground lawn irrigation systems, fire sprinkler systems, solar heating systems, or any other products or processes which may endanger the quality of the Corporation's water supply.
 - .6.1 Alternatively, the customer may have such an inspection performed by a professional engineer (or architect) licensed and registered in New York State who would certify the results of the inspection to the Corporation.
 - .6.1.1 Certification by non-corporation inspectors must be to the Corporation's satisfaction.
- .7 Water service may be discontinued by the Corporation for refusal to grant access for the aforementioned purposes,
 - .7.1 where the Corporation has a reasonable basis to believe, from the nature or use of such premises, that a determination should be made as to the existence, non-existence or degree of contamination hazard or
 - .7.2 where the activities there are comparable or similar to those of typical establishments listed in the State Department of Health guidelines as requiring protective devices.
 - .7.3 The customer will not be subject to discontinuance if, upon the refusal to provide access, he or she provides a certification by a professional engineer (or architect) licensed and registered in New York State that a backflow prevention device that meets the requirements of the Corporation and the State Department of Health has been installed; or, in the alternative the customer provides a certification by a professional engineer (or architect) licensed and registered in New York State that such device is unnecessary at the premises. Such certification must be to the satisfaction of the Corporation.
- .8 The Corporation may discontinue service to a customer's premises immediately in the event of an actual or imminent contamination, pending its abatement, where such contamination threatens the health or safety of persons or the Corporation's water supply.

Issued by: William M. Varley, President, 733 Sunrise Highway, Lynbrook, NY
